

Sri Krishna Devi

srikrishnadevi47@gmail.com | Sri Krishna Devi | KrishnaParhyar | Karachi, Sindh, Pakistan

Professional Summary

Full Stack Developer and recent Computer Science graduate specializing in building responsive, full-stack web applications using React.js, Node.js, and modern UI/UX practices. Proven ability to deliver projects end-to-end, from database design to deployment, including AI-powered systems and real-time applications. Experienced in leading technical communities and communicating complex ideas to both technical and non-technical audiences.

Education

Sukkur IBA University

Sukkur, Pakistan

Bachelor of Science in Computer Science

Sep 2022 – May 2026

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Object-Oriented Programming, Software Engineering

Technical Skills

Languages: JavaScript (ES6+), Python, Java, C++

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design, Mobile-First Development

Backend: Node.js, Express.js, REST APIs, Socket.io

Database: MySQL, Database Design

Tools & Practices: Git, GitHub, API Integration, Debugging, Agile Methodology, VS Code

Soft Skills: UI/UX Thinking, Team Leadership, Technical Communication, Problem Solving

Projects

SentiAware – AI-Powered Social Media Platform (FYP)

MERN, Python, Flan-T5, EfficientNet-B3

- Built a full-stack AI-moderated social media platform using the MERN stack with a Python-based NLP and computer vision moderation microservice
- Integrated Flan-T5 transformer model to detect and automatically rewrite toxic text into neutral form in real-time, improving content safety across the platform
- Implemented EfficientNet-B3 for harmful image classification using computer vision and OCR, moderating visual content before publishing
- Deployed multimodal content moderation pipeline handling both text and images simultaneously, with Cloudinary for cloud image storage and Brevo for transactional email

Movie Recommendation System (AI-Based)

Python, Machine Learning, Flask

- Built a content-based filtering recommendation engine using Python, achieving personalized movie suggestions with measurable improvement in recommendation relevance
- Implemented TF-IDF vectorization and cosine similarity to match user preferences across a dataset of 5,000+ movies
- Designed and deployed an interactive UI using Flask, enabling real-time user input and dynamic results

Anonymous Chat Application

React.js, Node.js, Socket.io

- Developed a real-time, privacy-first chat application using React.js, Node.js, and Socket.io with sub-100ms message delivery
- Implemented secure one-to-one messaging with session-based identity management, ensuring zero personally identifiable data exposure
- Designed a responsive mobile-first UI supporting seamless use across devices

Social Media Web Application

React.js, Node.js, Express.js, MySQL

- Built a full-stack social media platform with JWT-based authentication, user profiles, posts, likes, and comments
- Designed a normalized MySQL schema and REST API with 10+ endpoints handling CRUD operations
- Integrated real-time feed updates using React state management, reducing page reload dependency by 100%

Experience

Agentic AI Ambassador Nov 2025 – Present
MindHYVE.ai, Remote

- Drove AI adoption through targeted digital campaigns, growing community engagement across social platforms
- Created educational content on agentic AI tools, reaching 200+ professionals and students monthly

Regional Lead Mar 2025 – Present
Artificial Intelligence Community of Pakistan (AICP), Sukkur

- Led 10+ hands-on workshops and tech sessions on AI and machine learning, directly impacting 500+ students
- Coordinated regional outreach events, growing chapter membership by 30% through structured digital promotion

Legislative Intern Jun 2025 – Aug 2025
National Assembly of Pakistan, Islamabad

- Conducted policy research and prepared structured legislative documentation under tight deadlines for senior staff
- Synthesized findings from 20+ sources into concise briefs used in parliamentary sessions

Executive Committee Member Nov 2024 – Present
Computer Science Society, Sukkur IBA

- Organized 5+ large-scale technical events attended by 300+ students, managing end-to-end logistics and digital outreach
- Managed society’s social media presence, increasing follower engagement by 25% through consistent content strategy

Certifications & Extracurriculars

Certifications: Meta Front-End Developer (in progress), Responsive Web Design – freeCodeCamp
Activities: Hackathon participant, Open-source contributor, AI community builder
Languages: English (Professional), Urdu (Native), Sindhi (Native)
