

Sri Krishna Devi

srikrishnadevi47@gmail.com | Sri Krishna Devi | KrishnaParhyar | Karachi, Pakistan

Professional Summary

Full-stack developer (MERN) who has shipped AI-powered production systems, including a multimodal content moderation platform using Flan-T5 and EfficientNet-B3, deployed live on Vercel. Strong across the full stack — normalized database design to cloud deployment. Proven communicator and leader: 500+ students impacted through technical workshops; policy briefs delivered at the National Assembly of Pakistan.

Technical Skills

Core Stack	React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs
AI / ML	Python, NLP, Computer Vision, Hugging Face, Flask, scikit-learn
Languages	JavaScript (ES6+), TypeScript, Python, Java, C++
UI	Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive Design, Mobile-First
Tools	Git, GitHub, Postman, Vercel, VS Code, Agile
Soft Skills	Team Leadership, Technical Communication, Problem Solving

Projects

SentiAware — AI-Powered Social Media Platform (FYP) MERN, Python, Flan-T5, EfficientNet-B3

- Built a full-stack AI-moderated platform using MERN stack with a Python microservice for real-time multimodal content moderation handling both text and images simultaneously
- Flan-T5 transformer detects and automatically rewrites toxic text into neutral form; EfficientNet-B3 + OCR classifies harmful images before publishing
- Cloudinary for cloud image storage, Brevo for transactional email; **deployed live on Vercel**

Movie Recommendation System Python, Flask, TF-IDF, scikit-learn

- Content-based filtering engine using TF-IDF vectorization and cosine similarity across 5,000+ movies with measurable improvement in recommendation relevance over baseline
- Deployed an interactive Flask UI enabling real-time user input and dynamic movie suggestions

Anonymous Chat Application React.js, Node.js, Socket.io

- Real-time anonymous messaging with sub-100ms delivery; session-based identity management ensures zero personally identifiable data exposure
- Responsive mobile-first UI supporting seamless cross-device experience

Social Media Web Application React.js, Node.js, Express.js, MySQL

- Full-stack platform with JWT authentication, user profiles, posts, likes, and comments; normalized MySQL schema with 10+ REST API endpoints for all CRUD operations
- React state management eliminates full page reloads, improving feed responsiveness by 100%

Experience

Regional Lead Mar 2025 – Present

Artificial Intelligence Community of Pakistan (AICP), Sukkur

- Led 10+ hands-on AI/ML workshops directly impacting 500+ students across the region
- Coordinated outreach events and grew chapter membership by 30% through structured digital promotion

Legislative Intern Jun 2025 – Aug 2025

National Assembly of Pakistan, Islamabad

- Conducted policy research and prepared structured legislative documentation under tight deadlines
- Synthesized findings from 20+ sources into concise briefs used directly in parliamentary sessions

Agentic AI Ambassador Nov 2025 – Present

MindHYVE.ai, Remote

- Created educational content on agentic AI tools reaching 200+ professionals and students monthly
- Drove AI adoption through targeted digital campaigns, growing community engagement across social platforms

Executive Committee Member Nov 2024 – Present

Computer Science Society, Sukkur IBA

- Organized 5+ large-scale technical events attended by 300+ students, managing end-to-end logistics
- Grew society's social media engagement by 25% through consistent content strategy

Education

Sukkur IBA University — BS Computer Science Sep 2022 – May 2026

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, OOP, Software Engineering

Certifications & Activities

Certifications: Meta Front-End Developer (in progress), Responsive Web Design — freeCodeCamp

Activities: Hackathon participant, Open-source contributor, AI community builder

Languages: English (Professional), Urdu & Sindhi (Native)
